Arjen Bos

TRACK RECORD

Aug 2020 - Apr 2021

Data Analyst
ABN AMRO (via EIFFEL)

- Power BI
- Python
- Excel
- git
- SQL

As Data Analyst I was responsible for regular analyses and ad-hoc analyses. Optimizing and automating the report processes was part of that.

I've set up an agile work environment with git repositories, a Power BI Premium Workspace and a sustainable workflow to review and implement Python code and to be able to quickly adjust to changing client demands.

Aug 2019 - Jul 2020

Business Analyst
Belastingdienst (via EIFFEL)

- Teradata
- Excel
- SAS Visual Analytics
- Celonis

Analysing the current state of management information and processes (with process mining). Interviewing stakeholders from various departments. Designing and building a BI report to suit new demands.

In this project I've worked and learned together with consultants from different firms.

Jun 2019

Trainer Power BI
Rabobank (via EIFFEL)

- Power BI

2 months

Data Analyst Zorg (DBC)
Bergman Clinics (via EIFFEL)

- Power BI
- SQL
- Excel

I created a new automated reporting process which extracts data from the patient file system and supplies the insights necessary for the team leads.

2 months

Data Analyst
Alliander (via EIFFEL)

- Power Query
- VBA

I optimized a daily reporting process which included a lot of manual work. The overall time needed reduced from 30 minutes to 3 minutes, freeing the team lead from his daily and annoying responsibility.
